Although the cuter hull was badly damaged and two holds filled with water, the ship's inner hull was undamaged. # Thirty-seven Pieces of German Shrapnel Couldn't Stop It---

There is on exhibition in the showroom of the Detroit-Cadillac Motor Car Co., Broadway at 62d Street, one of the war's most famous veterans. It is an automobile affectionately called "Caddie" by the marines-a 1917 Cadillac touring car that wears three officially awarded service chevrons and one wound chevron for a year and a half service at the front and the honorable scars made by thirty-seven pieces of German shrapnel.

This famous Cadillac arrived overseas with the Fifth Regiment of the Marines on June 28, 1917, and covered 90,000 miles while on duty at the front. From the Chateau-Thierry sector it was driven to the Soissons area, then through the St. Mihiel drive, then to the Champagne front and finally wound up its fighting experience in the roadless Argonne-Meuse district. After the armistice was signed it carried officers into the Rhineland for the army of occupation.

Wherever the Fifth Marines went, there the Cadillac went too. The regiment changed commanders three times but the car remained constantly on the job with the Fifth. It was used successively by Brigadier Generals Doyen (now deceased), W. C. Neville and Logan Feland, who were commanders of the regiment in turn.

You are invited to inspect this remarkable car, which will be exhibited for a few days only, as it is still the property of the marines and in active service.

# PRICES DOWN - MILEAGE U Goodrich's New Adjustment

Having, on May 12, marked down tire prices, Goodrich next promptly marked up its adjustment figures.

It lifted adjustments to 6,000 miles for SAFETY TREADS, and 8,000 miles for SILVERTOWN CORDS, instead of 3,500 and 5,000 miles, respectively, heretofore in force.

Goodrich marked down prices in strict accordance with the Goodrich policy always to give the user the benefit of Goodrich economies in manufacture.

Goodrich marked up its adjustment mileage because the wonderful endurance and service Goodrich Tires are showing in actual service demanded adjustment that squared with performance.

Remember, it's a Goodrich adjustment, always safe and conservative, based on a greater mileage consistently given by Goodrich Tires.

Goodrich knows its tires are brimful of mileage, and it wants every automobile driver to have a generous share
